

FIVE DAY WEATHER FORECAST

Issued on 13th July 2026; Valid until 18th July, 2026

Key: Warning level

Likelihood	High		2	6	10
	Medium		1	5	9
	Low			4	8
	Very low			3	7
		Minimal	Minor	Significant	Severe
		Impact			

Expect warm and partly cloudy conditions during the day, with mostly clear skies, cold nights, and patches of fog, mainly in valley areas during the night and early morning. It will also be windy at times, with moderate to strong southeasterly winds affecting most parts of the central and northern regions, as well as lakeshore areas. These conditions will be due to persistent, fairly moist southeasterly airflow from the Indian Ocean.

WINDS: Generally South-easterlies

WARNING: Moderate to strong mwera winds with speeds of atleast 40km/h will be blowing over lake Malawi and other water bodies, mainly during daytime. All lake users are advised to stay alert.
