	Very low			3	7
		Minimal	Minor	Significant	Severe
		Impact			

Expect Chiperoni weather conditions to continue over most parts of the country through Saturday 16th August 2026. This will bring cooler daytime temperatures, strong winds, and mostly cloudy conditions, with a few isolated showers. The weather will be influenced by a high-pressure system, which is pumping moist south-easterly winds into the country.

WARNING: Strong Mwera winds of up to 50km/h are also expected to continue blowing over Lake Malawi and other water bodies. Fishermen and other lake users should exercise caution.

WINDS: Generally South-easterlies
