FIVE DAY WEATHER FORECAST

Issued on 29th October 2026; Valid until 03rd November, 2026

Key: Warning level

Likelihood					
	High		2	6	10
	Medium		1	5	9
	Low			4	8
	Very low			3	7
		Minimal	Minor	Significant	Severe
		Impact			

Expect windy and cloudy conditions with thunderstorms and rain over few areas in the central and northern Malawi until Saturday. This is due to the convergence of northeasterly and moist southeasterly air masses over Malawi. Expect hot to very hot and partly sunny conditions over most areas of Malawi from Sunday to Tuesday due to warm easterly air mass.

WINDS: Generally south-easterly becoming easterlies

Warning: Moderate to strong winds are expected over most areas.

- The public is advised to secure loose objects, roofing sheets and temporary structures.
- Strong crosswinds and dust may reduce visibility therefore motorists are advised to drive with caution.

REGION	WEATHER ELEMENT	30th October 2026	31st October 2026	01st November 2026	02nd November 2026	3rd November 2026
