SYNOPSIS AND INFERENCE

Chiperoni weather is expected to be dominant throughout the forecast period. Chiperoni weather is characterized by windy, dusty, isolated rain showers, drizzle, localized heavy rains, fog, and cold temperatures.

WARNING: Mwera winds with a speed of about 50 km/h are expected to continue blowing over Lake Malawi and other lake water bodies and are likely to cause high water waves of about 2 meters in height. Lake users are therefore advised to take appropriate safety precautions.

WINDS: Generally south easterlies...
