⚠ Lightning Threat Over Southern Malawi

🕒 **Urgency:** Immediate

⚡ **Severity:** Moderate

🎯 **Certainty:** Possible

Issued:

Fri 19 Sep 2025
15:20

Effective:

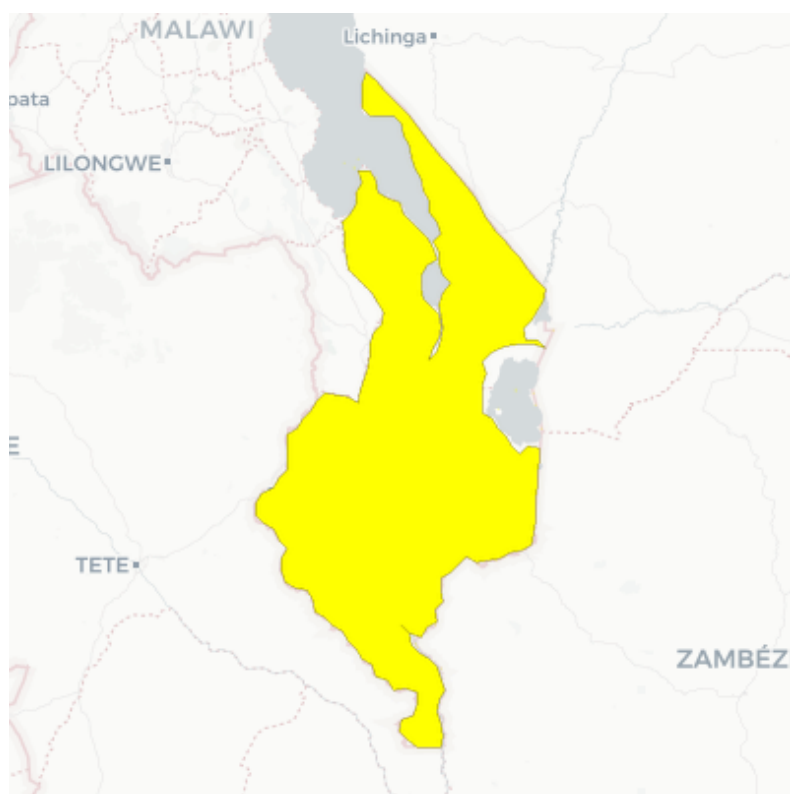

Fri 19 Sep 2025
15:20

Onset:

Fri 19 Sep 2025
16:00

Expires:

Sun 21 Sep 2025
15:26

Area:

Southern

Description:

Some areas in the south are expected to experience isolated thunderstorms accompanied by lightning. Although the rainfall will be isolated, lightning poses a significant risk to people, livestock, and property.

Instruction:

1. Avoid open spaces and tall objects such as trees during thunderstorms. 2. Stay indoors or in enclosed shelters when lightning is observed. 3. Farmers and herders should move livestock to safe areas.
