⚠ Mvuma winds on lake Malawi

Urgency: Immediate

Severity: Moderate

Certainty: Likely

Issued:

Fri 19 Sep 2025
16:05

Effective:

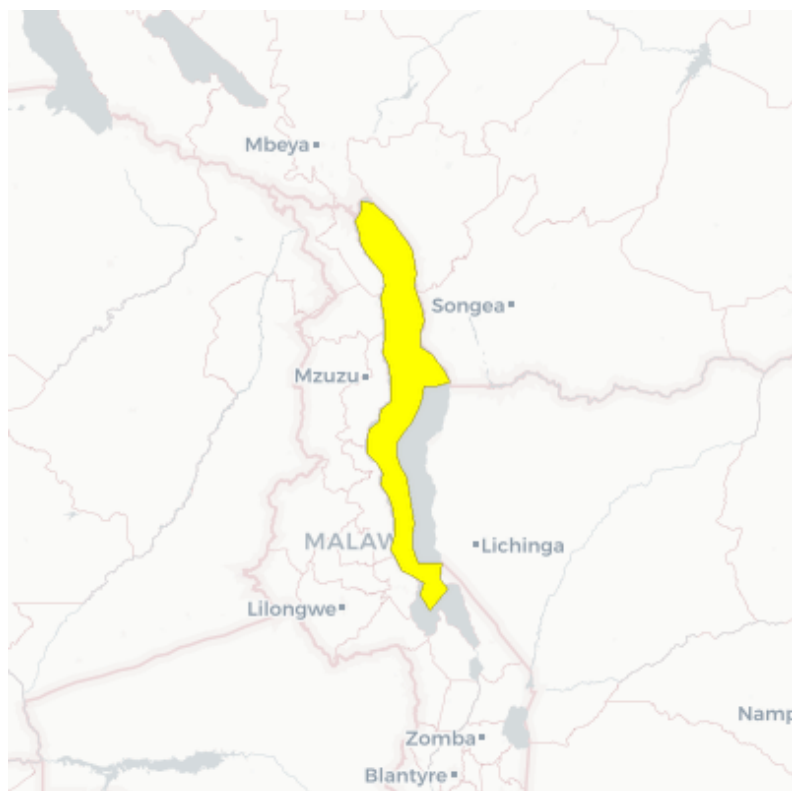

Fri 19 Sep 2025
16:05

Onset:

Fri 19 Sep 2025
17:00

Expires:

Tue 23 Sep 2025
15:39

Area:

Lake Malawi

Description:

A strong easterly air mass is expected to cause Mvuma winds over Lake Malawi. These winds are likely to trigger dangerous water waves, making navigation and fishing activities unsafe.

Instruction:

⚠ Avoid unnecessary travel and fishing on the lake during periods of strong winds. Secure boats and equipment properly along the shoreline. Ensure all safety gear such as life jackets is available and worn when on the lake. Stay tuned to official weather

updates and follow guidance from local authorities. Small boats and canoes are strongly advised not to venture into the open waters.
